

8/78 Take off your clothes and Embrace me

I love to see you walk in the door

Put your purse down and take off your shoes

I love to hear what has happened today

I love to hear it from you

also the way that you stumble to say

something that's tricky for you

But when you take off your clothes and embrace me

I sure love that too

I like to be there when you're sleeping by me

Books fallen down on your blouse

I like to pick up the phone when you dial me

To see if you're in or for an out

Try to help out in something if you don't

we pick up a note that we've sent

But when you take off your clothes + embrace me

I sure love that too

(repeat)

and oh when the sun is out and there's free music in baby

and so much to do

I sure like it on a day like that

to just stay home with you

in the way the lounge display

we lay back and drop

Dignity to work or give

Depend on the job in the tool

I love the way you live the day

and anticipate the things you do

But when you take off your clothes and embrace me

I sure love that too

(repeat)
