

Hope Fear Pray 10/78

Driving cross the Richmond Bridge at noon

I'd tell you the date and barometrical pressure too

But the point is through the silver steel

I got a sort of desperate feel

hated what's gonna happen on the next reel

To you - to me - to the Richmond Bridge

and I said: Hope fear pray

" " " "

Do anything you wanna do - say anything you wanna say

But baby's gonna Hope - Fear - Pray

Parked the car outside of the place I went to

Summer than where I drove from set by the sea blue

Actually it's mostly grey

But back to what I had to say

I was really blown away

Oh you - oh me - oh car outside

Ch.

Sittin' in the office ^{in business} taking notes

Punching calculators, pencils ~~papers~~ ~~and~~ smokes

There were pants legs there were dresses

There were maybes there were yeses

What ~~of~~ ~~the~~ ~~bordered~~ comes as these messes

To you - to me - to the company
