4/19 When all of it's over

When all of it's over and we cannot stay
Look on the starlit ~~sky~~ world, wonder why
The hill in the sky is steel to climb
But all of it's over so what can be shy

When everything's ~~under~~ and no one can stand
The heavens ~~burn~~ thunder the sun with a fan
The ~~flittering~~ ~~trees~~ ~~sit~~ ~~look~~ + the land
Cause everything's under and to help quiet

Look up - is it there?
Look down - scary
~~Inside~~ don't care - she chews on a pen
~~And closes her eyes not to look~~
And brings no cause to worry

When nothing is happening Mars will be
No one will care for you + no cry will flee
The covers that were simply worn under
What nothing is happening no fire and no strike,

+ look at the clouds in lie

It's a good day
Later Well say good
