

We signed in struggled in doped in dugged
N told him thanks the same
A drove off to our reactor
which helps to charge our game
Set around the breeder
which helps to warm our toes
N scratched our meggins
But the voice we'd gotten and supposed
that he'd had good intentions
But he had us quavered and a flincher
We had took the time to mention
N told him staff he was a clincher
The old geezer said
