

I'm  
I walk in some way back streets  
where our scum in some retreat  
I come upon a creep

who begs a drink of me  
I look away and walk right by  
He doesn't flinch he starts to cry

Out that booze then person hardly think of me  
I'm your only child - give some thought to some  
I'll tell me what you see

This alone is testing  
and I'm your only child - please remember me  
What do you work for - What is his name

Do you say "I work for myself"  
But if you try then I go lame  
What is your product - test it very far

Do you hope you can escape  
What its implications are  
It's true what I buried myself in this dirt  
But I'm what you have to show for your work

I'm your only child - crawling on your street  
" " " " - this is history

What will become of you if you neglect me  
I'm your only child - what will you leave me.
