Walking down on the beach (FM)

a pop^{A7 (F)} there + chanced to meet
 jumping ^{D (Bb)} playing in the sea ^{DM7 (BbM)}
 He saw me there + knew ^{D#6 (Bb)} (F) (G)

There was really no need to reach
 But being verbal and human it was me
 who yelled "Hey out there beyond the reef"
 I'm sorry what we've done to you!

We make you into yummy cat food
 Or teach you how to jump through hoops
 Like training Einstein to tie his shoes
 I'm sorry what we've done to you,

We said that's OK man don't sweat, I can see you're doing your best
 To us you're just another pest - we're waiting for you with the sound
 We sang not on our image maps - not anthropomorphic
 We'd only like it like you say "we're waiting for you with the sound?"

Well spend billions on outer space! Looked for another with your race
 Gal that would be their fate or ours if they were found
 While here on earth we have some cousins
 who are waiting to tell us something
 and they sing as they play with their fins
 We're waiting for you with the sound
