

Murphy's Law

We had a really super team
We picked the best and took the cream
Just an instant from our dream
Something happened made us scream

Murphy's Law Murphy's Law oo-ah - Murphy's Law
(CHORUS)

We planned it out with careful minds
We thought that everything was fine
We'd be laughin', sippin' wine
Why were we nervous all the time

CHORUS

INTERLUDE

If something can go wrong it . . . "would you shut your mouth"
If something can go wrong it . . . "would you hush up, hear!"
If something can go wrong it . . . "what you talkin' about!"
If something can go wrong it, can go wrong it, can go wrong it
If something can go wrong, it can go wrong, it will.

You might have reason to believe that you do need me of these
But listen to me please for everything takes heed of

CHORUS and INTERLUDE

Go on and laugh and scoff at me - but I've seen many histories
And the one the future leaves know quite well they cannot beat

CHORUS

Soay - Beware you all of Murphy's Law
