

This is a Dangerous Place

This place may be wonderful This place may be that
For all I know it could well be as good as you can get
But take a good look at this face
this is a dangerous place (CHORUS: repeat)

We may be vaccinated Maybe feeling great
We may ~~be behind~~ live behind high walls and be protected by the State
And if it's one by one or if it's in a flash
the fact remains you'll go insane if you think that it will last

CHORUS

(her face)

Eating on an apple Sitting in the sun
Like a thousand stories and here comes another one
Will everything work out O.K. What will they become
Will they live and love happily and will they get their knots undone

CHORUS

(their face)
