

Feel My Trembling Hands

Never turned down a discount
Sure you understand
But when you walk through my door
Can feel my trembling hands

Feel my trembling fingers
Feel my furrowed brow
Lost my cool like most men do
and you can see me tremble now.

Don't believe in raising hell
all over the land
But quiet in the night & hush of your night
Can feel my trembling hands.

(Chorus)

I'd love to be independent
Like Jesus on an air Road
With you or without you in doubt
Can feel my trembling hands

(Chorus)

Sometimes I feel at peace
as I lie beneath the ceiling fan
when you come in & loose the wind
and find my trembling hands.

(Chorus)
