Every Day's a Good Day   David Chadwick 2/02

```
G                          Em         C                    D7
```

```
G                          Em         C                    D7
Sittin' there is who you are      --  Be you bozo, be you star
     G               G7          C
On a cushion chair or fallen tree -- Callin' to the fallin' in thee
A7                         D7
Happy to be just who you are
```

```
G          C          G
And as the mountain man say                    Chorus
          C          G
Every day is a good day
          Am              D7
Every day is a good day      [repeat chorus instrumentally]
```

```
G                          Em         C                              D7
Standin up is gosh almight  -- Beyond the good and wrong the left and right
G                  G7              C
But any names like Buddha, Tao  -- Allah, God, Mind, Holy Cow now
A7                         D7
Don't begin to cast light on your light
```

[Chorus]

```
G                          Em
Lyin' down the run of day is over
C                                    D7
There you are in dreams of streams and clover
     G               G7
Now you know why they say one way
C
Like the clouds up in the sky they
A7                              D7
Rain upon the branches and the boulders        [Chorus – sing second time]
```
