1/8 ~~[illegible]~~ Lemmi outta here

D7
The other night I think I had a bad dream
and this is how it started
I was walking with my band at the Big Neighborhood
national chain Supermarket
they were selling guns there to everyone
would be with their money parted
there were bins full of bullets
and handgrenades
and knives to cut off your testicles
Stabbed my best friend and turned around said
Let's get out of here (there was a special on ~~[illegible]~~
It's just a fantasy but it could not be true

There Must be Something people just won't do

So the skunk said, Whatever I think
But he didn't think or say
I'll tell you bout my Uncle Ralph who
turned out to be a lampshade
then he turned on his projector
and let the film run through
Secretly selected footage of the Worst things people do
But when he pulled out his dentist drill
I said "Lemmi outta here!"

Fears of the flesh are cycling disasters
Beyond incredibly magnified scales they are
which hurt my senses and seemed to go on forever
He teacher what's next? Nothing that's it - Let me outta here

Lemmi outta here
Lemmi outta here
