

3/8 Baby We are Fooled By Everything

Oh we think there's something
or we think there's nothing or we think ~~there's~~ it's in between
or we hope for this or afraid a that or we might be behind mean
There's a world of known and a lot of blown of cools and tops + winds
We've got a list of everything that is and kites + things
But baby we are fooled by everything

We got a big computer and a ~~scary~~ scary 6 shooter
we got fins and we got wings
a fat on the facts ~~at~~ pressure points on our backs
Aluminum hips and feet that are clean
Covenant descriptions of all our addictions
Places where were fat and places were lean
Have fun in the sun all day long
But baby we are fooled by everything

We get into delusion
after leaving confusion
The biggest mess you ever see
Then who's ~~the~~ solutions
and making exclusions
The mind gets soft the brain gets keen
were reading the masters
and meeting em after
and getting into subtle things
Try to get our friends into what
wered in

Phone operators, prognosticators
Interpretators of our every thought
Ways to release from the infamous beast
But when ya get free ^{now} ya dont get caught

We got ~~plans~~ hands we got plans
we got musicians
we got homes all surrounded by green
We got fantastic notions all ripe for explosions
and mutual defense ~~plans~~ dreams
Optimistic models ~~and~~ backups when they crumble
and sometimes we just start running
wer'e ready to chat at the tip of a bat
But baby we are fooled by everything

Now I mean everything ever getting everything ever
