NO NUKES 5/79

First there were socks Then rock thrown
then there were ~~sticks~~ then dart blown
Later the pillow of course pillow fights
In time bombing oil and dynamite
But when we split the atom we didn't see
It was just as scary when used for peace
Maybe someday we'll grow up be astute
But for now sing it out No Nukes No Nukes

No Nukes
No Nuker
No Nuker
No Nuker

No nukes - don't need that stuff
No nukes - come on we've got enough
No Nukes - ~~We've got plenty~~
No nukes - ~~we've got plenty~~

There was 10's of thousands in Japan
That we put in that frying pan

There's lots of fears of insane ~~fright~~
But need we fear to turn on lights
We need to strike a hole in a gene
There's plenty ~~of~~ of other energy
There's energy less and using well
And using in ways where some profits don't swell

Cool wind blows makes fun of me
Clouds laugh by what happen to see
The cool wind blow makes fun of me
