Not By Chance

11/79

you cannot sit + brew
~~the~~ after all that were been through
gates some things to do
Madam - its not by chance

+ pull you to my side
at least halfway
Casting then a most slight
glance - its not by chance

Coincidence has never meant
its just a random meeting
Instruments can't read print
though underlying meaning

We happened on this scene
started off so green
look at the same
holding hands - its not by chance
