

You gotcha nerve
if you'll never learn
you're bound to burn
Bet there's no end
So dear old friend
Who ever heard
If you got the urge

The city spreads
So do our heads
The world is
White jungles grow
and rivers flow
We might just burst
Oh got the urge

Produced trash
Put down the tracks
if you don't fight back
and don't keep silent
you never will
and in a word
you got the urge

you got the urge
we " " " " " "
you'll never get the urge
if you got the urge
you got the urge

we feel the urge - let's mow em down
you " " " " " " - Don't slow down now +
we feel " " " " " " - plant a tree and bite them fingernails
oh feel " " " " " " - get religious + go to jail

Itchy, hopping, nervous, gawking, shuffling, squeaking, cooing, squaking
Flapping, crapping, talking, talking, sewing, glowing, humming, hawking

Wing down south in feroce
up north with the Eskimos
Keep it up regardless if it hurts
oh got the urge

You got your body
Oh Babe you got me - Kiss me again
Or lets go swim
you're game for sure - you've got the urge
