Now that we got our boys back we're gonna get more + more again
This is the way it ought to be - It's good for them if it's good for me

In their dirty clothes with their stinking breathes
With their sweat and their excuses
We got more of our money than the boys who make the guns
Don't we're gonna pay for the bombers
Let 'em live in cold + dirt - if they want the job they can get the work
Now when you see them on TV sport - count how many weapons we've got
They're the navy + there's the air force - + we're gonna get
What can't get got.

Throw a dime at them feet but keep them where it's man eat man woman + child
~~But it's cheaper~~
But help'm too much is not pip at all
On the rewarding for spiritual

For you who can enjoy it to the hilt
Shame just a sign of guilt

So when you feel that tug at your wallet
Keep Walkin ~~tell them to go~~ for it's them or self
~~Enjoy it's cheaper~~
Welfare costs more than a police state
and We'll cover the cops to keep it our way
But the more prisons while We're at it
For when they develop pro work habits
