Give me back

An old man, weary man, man alone  
I am ready to die  
& built this country with my back  
and now I wonder why

Give me back the trucks & land  
Give me back the roads & paved  
I'm bent 'n broke with nothing to show  
For the work I've done and the money I know  
Give it back or else I'm just a slave.

~~etc (last)~~

Give me back the crops & grew  
Welfare lived without do

Give me back the ~~men I killed~~  
Fighting in the wars of corporate will  
~~Give me~~
