

The Big One in the Sky 8/78

He { Darling let me tell you we will find it by + by
 Though there be trials after a while
 The big one in the sky
 She { Surely you've lived long enough to know oh lover mine
 You're just a fool who dreams and broods
 This "Big One in the Sky"

He { Never lose your faith dear
 On life will go away
 For I know something we'll surely find
 The Big One in the sky

She { If faith is in pretenses and forgotten that we die
 Be it broken - quit this job
 The Big One in the sky

He { See it - you can almost see it
 It will be yours and mine
 Our ship comes in - we're bound to win
 The Big One in the sky

She { In this cloud poor darling with your life going by
 In stillness thoughts of gold and gods
 And the Big One in the sky

He { Fill my glass my darling with whiskey
 For the cold and snow
 She { Fill your glass my darling - with whiskey
 And sit by your side
