Watchamacallit

Had a friend who had this experience
he was caught outside the bank after
He prayed that he could be given the slightest clue
as to what he had been
doing about your past and about
your Watchamacallit

Now the last thing that he thought
later he wondered what had been talking about
Went to the library and looked up
But all he found was a book on So What
Outside going down the steps
an old bum humming Holland
Don't forget your library card
and don't forget your whatchamacallit
He juggled so that he called KGO
Even the Technician didn't know
He called the University, and the
Government by the Store
Everyone said they had the answer on the next floor
He finally was sent a shrink who mulled over
the story and came back next week and told him
Now that was
As he walked out the 5 minutes
he was called to
Don't forget your card but forget about your watchamacallit

Don't forget yes library card
and don't forget your watch and all
He fuggled so that he called KGO
The Technician didn't know
He called the University, and the
Dg governments by the Score
Everyone said they had the answer on the next floor
He finally found a shrink who nodded gravely
that was it I was urged about
as he walked out the 5 minutes
he was rudely called
Don't forget your coat + don't forget about your watch
