In our own lifetime

C G/A E
Who knows what went on today
what has watched and what could say
Were some that had a sense of play
and as each moment ticked away
came closer to the night that plays
in our own lifetime

C E
Desperately we try to grab
at anything we think we have
A thought, a hope, a name, a stab
Tipping back the light carafe
we soon suspect we'll get the shaft
in our own lifetime

Lifetime of borrowing –
Pennies in the jar –
arrangements ~~[illegible]~~ only purposly
Placed where they are
Stands at the window
looks past the car
The clothes on the line blow in the yard

C E
Usually we're told the sun
We don't know i.e. we are done
Or otherwise get off how fun
With any alterations which can't become
But rarely be ~~[illegible]~~ something will
In our lifetime

Awkwardly say things like to the guest who's overstayed
Something in common – knows to excuse
Hurtles the door she loaded worked be
In our own lifetime.
