3/83 Hearts Desire

It might look hard
Make me tired
But a camel can go through a needles eye
Then even I can have my hearts desire

It might not last
The way things do
But I'll be past
I'll climb through
And if the 1st foots in the fire
Then even I can have my hearts desire

Oh you could use a friend too
Just like monks + monkeys do
Oh you oh you oh you

My mind is set
Then on the path
That changes me
To make it on
And I've found a place that's
Then I can have my hearts desire.

It might look hard / It might look high / Make you tired
But a camel can go through a needles eye
Then even I can have my hearts desire
