I wasn't scared when I looked at the friend
I didn't hurt when the pain ~~left~~ I wiped clean
I wasn't hungry cause I ate the tangerine
~~I found the company I had complete [illegible]~~
~~[illegible] [illegible] made the~~
Seeking me help I found delightful company
I love to see an animal smile
You can see it if you pick up their style
~~It makes it all seem~~
For ~~a while~~ it all seems worthwhile
When I see an animal smile

Sometimes I see a bug alone
I wonder if he's walking home
God he's got a long way to go
I wonder if he hears my hollow

People on the trolley ~~people~~ streets
People on the hill and streets people in the
~~Bugs and [illegible] going~~ throughout the galaxies
~~People with hands and feet~~
Fishes in the sky birdies in the seas

Surrounds us all there's water and land
There's rocks and sand to cover them
With friends like these who needs despair
Let me introduce you to my good friend the clam

what a waste of time to [illegible] to save me
what a hopeless hope [illegible] to hang on to me
what a sad state to try to be free
Like sitting and sulking at a party
