

Went back at Nightfall through haves + have notes
Death Smog and duobronants to house and bed
I heard the ~~city~~ traffic, the neighbors laughing
I saw ~~the~~ sounds of ~~the~~ airplane flying overhead
~~call a~~ War at the Back Door

4/82
the of the Garden of Eden
We've got ~~the~~ power for good or evil and just like always we can choose
this was the promise that is the promise
The promise was that
were false creation we create for
We'll have a choice
between good + evil.

G of F - boundless pleasure
I don't believe in all them there's
no stories too
But we can use them for understanding
what's possible for us to do

took a walk with my family ~~to the~~ to the countryside
We enjoy the life we've got here
Flew a kite and ate some sandwiches
~~to bed~~ sitting on the grassy mountainside across
looking down there at the city ~~the whole world~~ the way
we have come so far and coming into reach
to a dream that ~~was~~

It's a choice that could go either way
We're at the back door of the garden of eden
the gate is open and we can walk in
We've come full circle now we are there again
we're at the back door of the garden of eden
Though it's a garden there's still a snake there
though it's not perfect ~~don't~~ get me
But we must go there or by our own hand
we will be most horribly destroyed
