(end here)

It's been tried before  
 But they've never  
 It's been tried before  
 We're gonna try again

all the bad people in the world - what are we gonna do  
 Now if we could only lynch em or fry em or torch em all away  
 be no more bad people anywhere - be a brand new  
 U.S. could walk around the streets with radios and  
 will be safe and our children too and our homes and  
 Maybe we could breed em out - use some DNA  
 Find em with Psychological tests or Machines that read brain waves  
 Or use hijackers profiles or how their parents turn em  
 Or put em on an island behind a wall of waves  
 and let em fend it out together or we could shoot em into outer space  
 Just good people left in'll be such a great world

Don't know how many Russians will be left - maybe just their little go  
 All bad people dead - an end to violent crime  
 All the good people having pickers, breakers, bread  
 peace and goodly in our time

It's been tried before but they've never  
 It's been tried before by nations men But hold
