Like around the Clock

E
Put down my tools at home
I'll go A and be round alone
I'm gonna like around the clock
like around the clock E G# E
Am
Take my guitar and my hand
B7 Well walk around no end
Leave my car in the garage
Meet me Buddy on the bridge
B7
And I'm gonna take no corrupt mass transit
F#m7
People never pay for it
F#m7 B7
And I'm gonna deal with no energy issues
F#m7 B7
I'll just wait for the gas to run out
If we're dumb enough to use plutonium
We deserve to get wiped out
F#7 B7
Now people talk about the words
It just makes em nervous - the city's really got the goods
