Love Forever

A6 Let me tell a story about 2 people who
 Went walking on Clement St by 19th Avenue A6
 The lady was a grumbler. The man had a false
~~It said~~ something cryptic but it just meant form to loose.
 Oftentimes the lonely are unfriendly and abuse
 It was something he'd said which was thoughtless and was
 she blurted out without a pause quite equally as crude
 and that is how our lady and our man became unglued

The love forever - through + through
 Love forever never left our lady and our dude.
 The love forever - his hope
 Love forever has its day while love just has its day

A dapper on the corner selling flowers saw them there
 Didn't see the love forever rolling off their hair
 But if he'd been instructed with a keen eye he would see
 Something all about their trust as old as Anthony
 The love forever - on the corner. It will find them far and ~~and~~ follow them farther.
 The love forever - on the street. It is on the morning it is in the heat

He was tall and swastika because he hadn't learned to stand
 She was something else and not at all what she had planned
 Topsy Turvy went their thoughts and in it all they met
 She was by the signal he smoked a cigarette.

The love forever just in time - something in their motions; nonsense in their minds
 Love forever - and its love too - love forever never doubt it ever will be true
 Now he is off and working and he's often too alone
 He moved to Arizona to a Christ town called Jerome
 Probably they'll never know to write it down or say
 what happens where we wander like on Clement St. that day

The love forever - like it or not - love forever's ever there but nothing you get
 Its love forever - and its love too - love forever never doubt it ever will be true
 It'd been walking from the south and he'd been walking too
 passed each other brief there by 19th Avenue
 wherever they may be today, their routines will include

and that no how our lady and our man...

The love forever - through + through D9 A6

His love forever - his hope
Love forever has itself while love just has its day A6

As I stepped on the corner selling flowers saw them there
Didn't see the love forever rolling off their hair
But if I'd been instructed with a keen eye he would see
Something all about their trust as old as Anthony.

Its love forever - on the corner. It will find them far and ~~find~~ follow them together

what happens where we wander, lets on Clement st. that day

Its love forever - like it or not - love forever's ever there but nothing you get
Its love forever - and its love too - love forever never doubt it ever will be true
