

new song called Platoon
I Platoon Sal Platoon
I said to Sal I see you're just pluto and you
here means meandering lather upon from which
here means return but in which there is no ecstasy.

Got a date with Platoon Sal
She's really great & she's my but a gal
I love the Platoon Sal

She's got the answers I needed
Oh what joy she brings
She just drove over in her cadillac
and said don't worry but a thing

Platoon Sal I love you
I love you
I love you
I love you
I love you

Walk to the store cause I got a gas
With there be a black out this year
Buy a gas tank but I'm so depressed
On the Theater found Regan she's
said that I have more + more
and now she's the only one I depend
on can depend on Platoon Sal

Platoon Sal I love you gal - who else is left
she comes to me in my desperate need
to fulfill childhood dreams run - DO T - B
