They're in Love

D9 G#o G7 C9 G7 C9 F A9
Anthropologists all agree after looking at cultures & history
That we're unique in how we see ideal male female relationships
What we expect is some fantasy that seldom if ever comes true
How many times have the deputy to wit Natalie such indulgent situations
For what we romantic folk designate as dreadly bizarre and a psychiatric state
Let's see were expected to participate, let's take a glimpse of just what we are
See that couple hand in hand dreamy eyed?
That animal walked in front of the Hall of Arts!

They're in love – it's easy to see; they're in love – come take a peek
" – how funny and they; sure muff they're in love
" – they've got the signs; they're in love – they're having a time
Between the ridiculous and the sublime – sure muff they're in love

Little girls are dying for romance from here to eternity
Little boys see the hollywood movies – someday that's for me
There's gooey love and lost in love in books and on TV
Here we have a perfect example of this bliss or malady!

They're in love – it's not hard to tell; they're in love – see he just fell
She'd rather be with him than the gov – there's some wisdom in that; they're in love
They're in love – how long will it be; they're in love – she bumped into a tree
They'll short their circuits if it goes indefinitely – sure muff they're in love

Widows in their homes await an airline pilot for a date
Taxi drivers eating beans – dreams of queens that couldn't be
Best even though we go insane; it's humbling to do it now and then
For instance here we [illegible] today – two who lost and found their way

They're in love – off they go,
" " " – see it's sure shows
They just gaze on the bus when push comes to shove
Sure muff they're in – unconditional surrender
" " " love

She worships because he is a jackass
He's got warts on his penis – she's offset more venus
That's strictly between us – who ever could wean us
Uh-huh – Sure muff they're in love.
