

When You're Not There

[Feb]

76

Now if you knew my luck
 She comes to call when you're not there
 Now if you ever want my love
 you'll find her all when you're not there

She will take you dancing
 and you'll love the way she spins
 The colors in her dress will make you drunk
 she will lead you laughing
 through streets you've never been
 then when you're full and sigh
 she'll kiss you quietly by
 and dance off with her eyes to say you're

Then you have lost this love
 she'll never come again though you work long
 then you have lost your luck
 she'll come to call when you are gone
