Who makes the days delighting

Who penetrates the nights

and who has a way with Sundays some days

and Sunday nights - late Sunday nights

Who now who would be just right

I know - it's the lady in with tonight.

They call it love cause there aint no words

to call it love but I'd feel absurd.

and lady I could go on Hushy lady

lady I could go on all night

and after we've made love

lady I might.
