

Usually we just tend to business  
From business teeth to steam stew  
Or just walk from one place to another  
It's really the most that we can do

But there's gotta be a sense of magic  
Better make room for joys  
Set aside your mind for the tragic  
Be ready for simple joy

Sing a song for simple joy  
It starts off with pretending  
Dance ~~when you~~ dance for simple joy  
As if it were mending

Now dance!

Sing a song for simple joy

Alone in your room  
With strangers out there  
Do it with neighbors  
Do it together

Dance a dance for simple joy  
" and " take a chance

Sing a song and a dance  
and you will find  
That it can be done and  
is out a sight
