

~~Fuzzy~~ B9 ~~day~~ - my throat is falling out
take some ~~of it~~ - don't know what it's all about
Honey pretty please me
lets ~~the~~ sweet ~~to~~ B9 S tag around in tease me
- watch it as we move on out

P7
Can't be up and at em all of the time
Can't be always about
Got a cold that's 7 days old
and it really ~~knocks~~ me out

Clear sky but the cities ~~are~~ all stopped up
Terrific congestion in the avenues
and trucks

No one can respond

Or save us with a magic wand
Someday it will rain smog and snow black dust

What a life - sure will not comply
Got no neck to put my harness on
Friends in foes consider me

One were all so lonely
Even though we're the children of the same
