Dear mama I am lucky and privileged
Mom Children and been told I am welcome in the states
But critical by others less fortunate than myself
Watson by peers
How much are you held by
Psychopath me mama
And caught just as well by
He doesn't fear me
Nor him do propositions quite frankly
All life's contraptions
He tabled for the night
Bout robbin Hus Bank he
(Ch.)
Said no thanks ye
It's not my bowl of soup
And — (Ch.)

When you steal that pencil Am
" " Smoke that cigarette
" " close that window
" " hide your head
When your beep putting off
When you bark
When you don't
Or mom
Just look at yourself
You're gonna get caught

That's the main point See
He then said to me
We must get scott free
And by a plan here
He layed it out carefully
He'd sure thought of everything
He could see me considering
(Ch.) I had but one fear

Course you may loose out
He said there's no doubt
But sir when your time's out
The Past Collapses

We're off to the Bahamas
I'm part of the gang now
I don't give a damn now
If we don't escape
For sooner or later
I won't escape
All of my habits
Will fall on me
