

2/80 ~~Am~~ Pacific Storm 197 ~~Am~~ 7 2/80

It's the big ram and the Big Wind
their pressure fronts are at it again
Sat around and ~~fewed~~ friends by ~~strosone~~ lights

Now there's tall trees that could fall down
We get a little nervous and peak out off
And when the house shakes we do too a night

It's ~~that old~~ Pacific Storm at our side

We go out there with flash lights
Whoa the creek is ~~sure~~ getting high
We may be out there sandbagging

Mayums rug might have to come up
If the storm don't let some up

The weatherman says that really there are five
It's ~~that old~~ Pacific Storm at our side

Pacific Storm - Keep me warm
Glad you from you out there you're strong
You won't last long but you may do harm - Pacific Storm
Pacific Storm - you show our strength
you bumping in you measure our length
and reminds us of our fragil form - Pacific Storm

Wised sway but poles break
Others come over to partake
got gas cookin and can make dinner tonight
Out there at the beach now

The faces you've seen reach now
What lessons these elements preach now in powerful
It's ~~that old~~ Pacific Storm at our side
