

I Planet in the Sky 4/80

I can see the shadows of the vanished form
I can taste the ~~cloud~~ bank soon well call it fog
I can feel the warmth of the ^{NAI} here creating
Past windows reflections see one planet in the sky

~~Winds~~ Winds of changing feelings
Fit and through all worlds ~~the~~ my throat
Menageries of urges come popping by
They not ^{emit} the glow from the planet in
sh sky

Covering completely ~~the~~ the thoughts
Each with its own history as likewise
Dancing as with partners ~~at~~ its own turn

and at the source the sparkle of the planet in the sky
~~and yet no I go by~~ ~~at~~ ~~the~~ ~~planet~~ ~~in~~ ~~the~~ ~~sky~~
intending as the Salmon and acting as the bright
On course and with ^{the} the planet in the sky

Mind ~~is~~ ^{is} and the sheppard ^{John} ~~John~~
Keep awake and watchful ^{with your sword} ~~with your sword~~
^{is done}

Don't let your mind wander

The sheep are safe ^{beneath} the ^{sun} ~~sun~~
and the planet in the sky
