Skylab is Falling

7/9
41

Skylab is falling a little bit every day
and when it ~~gets~~ gets close enough

It's soon to earth in flames

Skylab is falling - falling from Sky

Skylab is falling - ^{soon} Chicken little was right

Chicken little was right but it was just a nut
From Skylab falling on his head

Oh how it made him duck
In fact he was wearing his helmet
Just like all other good chickens do

When Skylab is falling
To Earth from the ~~top~~ ^{sky} blue.

When Skylab is falling right now today
I hope it falls on the 6 million dollar tree

The bronze Caribou could ~~be blown to~~ ^{be blown to} ~~the ground~~

We'll run over and get souvenirs
One for the parade ^{Am} + one for the examinee.
