

6/79 V 31 So Soon to Follow

So soon to follow

So eager to take you

I may have no love tomorrow

But its June such as this

That I'd opt for a kiss

With no thoughts of the first

on what I am down

To follow so soon

When you call me a name on the phone

There I go there I go

So soon to follow

When you tease me with glances or a glow

There I go there I go

So soon to follow

So hard to leave well alone

No sense of the source of sorrow

On what course

And what be pursued

To follow so soon

Splitly to take you  
Methodically  
like oysters of late  
which are not on  
the plate  
Then turn and say  
imply its a boon  
to follow so soon

When you call me a name on the phone  
There I go there I go  
So soon to follow  
When you tease me with glances or a glow  
There I go there I go  
So soon to follow

So soon to follow  
So hard to leave well alone  
No sense of the source of sorrow  
On what course  
And what be pursued  
To follow so soon
