First we had the big bang if you're in that gang
and now we've got me + you CFC 6

~~Secure your future~~ till its all through
~~from the beginning~~
There was the primordial ~~egg~~ oze then blue suede shoes
Still were sufficed round for clues 7

~~But at Puro + take long till its all through~~
Will become + gone fore we know what to do CFC 6

sure seems that ~~short~~ ^{were barely here} were here
So what continues on
what were we before and what will we be
and what will we be when we're gone

There were bubbling volcanoes
Then little Sars Jamos
a zillion lives and galaxies
Nothing stays long
It just flickers + flashes CFC 6

where's an indication of the ^{real} ~~general~~ situation
anxieties built + loom
The ~~before~~ + after life is a dance
Right here in this room

so its this before she immerses
and this no better + no worse
after all history is through
and its this out there
and its this here too CFC 6

This and contains well ponder but what's the whole lot
get what you want
take any but what
oh up down
100 for
100 for
